Forecast for Monday 07 Dec 2020

Weather: Rather cloudy today with a few showers, of snow above 750m, but some breaks in the south towards Loch Ericht giving some sunshine. Conditions will deteriorate this evening with heavy and persistent rain, with snow above 500-600m, setting in. With winds also strengthening blizzard conditions will readily develop.

Chance of cloud free mountain/hill tops above 800m: 40% during daylight hours in south and 20% in north then falling to near zero this evening.

Visibility: Locally good in the far south, otherwise moderate, occasionally poor in showers in north then very poor to nil this evening.

Met Office Aberdeen Meteorologist's View
Nothing to add

Forecast for Tuesday 08 Dec 2020
Weather: Further rain snow and mountain blizzards overnight, snow initially around 600-700m but rising 800-900m. During the day mostly cloudy with further showers, these mainly of rain, but still snow above around 800-900m. With winds easing the blizzard risk decreases.

Maximum wind: Northerly 40 gusts 55mph in early hours easing northwesterly 25 gusts 35mph during the day.

Chance of cloud free mountain/hill tops above 800m: 10-20% through daylight hours with cloud down to 5-600m.

Visibility: Below the cloud, moderate, sometimes good in drier spells, occasionally poor in heavier rain and mountain snow.

Temperature: **Glens:** Plus 6 Celsius
At 800m: Plus 1 Celsius.
Freezing level: Varying 800-1000m
